

**IMPORTANT INFORMATION ABOUT WALGREENS PHARMACIES
(Walgreens pharmacies include Duane Reade, Happy Harry and Option Care)**

On December 1, 2011, Walgreens pharmacies will no longer be part of our pharmacy network. If you use a Walgreens pharmacy, you will need to change to a pharmacy in our network.

It's Easy to Change

You can transfer your medicine to the new pharmacy by doing one of these things:

- Call your new pharmacy and ask them to call your old pharmacy to get your prescription transferred
- Ask your doctor to call your new pharmacy with your prescription information

If you have any questions about your benefits, you can call Express Scripts or our Member Services department:
